President's Message

Kathy Buelin

This has been an exciting year already! We have a new ARROW, and now we have our membership directory back. Thanks to your organization, and with the support of our industry partners, we are proud to have this opportunity to connect our members with each other. It should be much easier to keep in touch with one another.

We hope you will keep this handy — ready to call, E-mail or write to other professionals in the state with any questions, suggestions or greetings that come to mind.

I personally have missed the directory — so it will stay by my side as I work with the members this year. As you meet new people during the year, (maybe mid-year chapter leadership, district meetings, state or national conference) mark their name or tab the page so it will be easy to find them later in the year. I know I have met people at meetings but forgot which area they were from!

Communication with one another is such a valuable tool. Who better to ask questions than other child nutrition staff performing the same job in another school system? Have a great year, and enjoy the membership directory.

I look forward to working with you and hearing from you. 🍎

Sincerely,

Kathy Buelin

Versatile Decorative Affordable

Through our trademarked SERVTECH Custom Feeding Systems and our patented DEPCON Decorative Utility System, we offer our clients an innovative, cost-effective way to remodel their dining facility without cutting floors and in as little as 3-4 days.

We have installed SERVTECH & DEPCON designs in over 12 states. Our approach is to take the entire operation of a school dining facility: labor costs, control, speed of service, presentation of the food, as well as the aesthetics of the serving and dining areas, and make necessary changes in a very economical way. We have developed a method to successfully complete a turnkey installation in 3 to 4 days. Our patented DEPCON Decorative Utility System has been in use for 12 years and we have used it, not only in schools, but many business and industry projects.
